- MongoDB Associate DBA [🔗](#)
- React [🔗](#)
- Cybersecurity Analyst Job Simulation [🔗](#)

## Professional Experience

### Web Developer Intern

*Codsoft* [🔗](#)

2024/07 – 2024/08

## Projects

### Healthcare Chatbot

Developed a Java-based healthcare chatbot utilizing Weka's machine learning library to predict diseases from user symptoms. Key features include data handling from CSV files, a Random Forest classifier for predictions, an interactive java swing interface, and detailed outputs with precautions and disease descriptions. This project enhances user health awareness and decision-making.

### BikeMatch pro (Website)

- **Developed Bike Match Pro:** A web-based platform for users to search and filter motorcycles by brand, body style, displacement, and price using HTML, CSS, Bootstrap, Java, and MongoDB.
- **Advanced Search and Filter:** Implemented dynamic data retrieval for up-to-date motorcycle information and real-time updates.
- **Optimized User Experience:** Ensured a responsive and user-friendly interface for seamless performance across various devices

## Skills

### Frontend development

HTML, CSS, and React JS

### Java
